## PROFESSIONAL SUMMARY

Software Developer / Engineer with hands-on experience building end-to-end web applications using Java, Spring Boot, Angular, and MySQL. Skilled in developing RESTful web services on the backend with Spring Boot, Spring MVC, JPA, and Hibernate, and building responsive, component-based user interfaces on the frontend with Angular, TypeScript, and HTML/CSS. Strong foundation in object-oriented programming (OOP), data structures and algorithms, multithreading, JDBC, and the full software development life cycle (SDLC), with practical exposure to microservices architecture. Self-motivated and adaptable, with strong communication and collaboration skills. Quick learner, continuously expanding skills in cloud fundamentals (AWS, Docker) and enterprise full stack development.

## TECHNICAL SKILLS

**Programming Languages**: Java, Python, SQL, JavaScript, HTML,
**Frameworks & Libraries**: Spring Boot, Angular, Flask, TensorFlow, Bootstrap, CSS
**Tools & Platform**: Postman, Git, GitHub, GitHub Actions (CI/CD), Maven, Codex, Copilot
**Database**: MySQL, SQLite, PostgreSql,
**Core Competencies**: OOP, Collections, Data Structures & Algorithms, Exception Handling, REST API / RESTful Web Services, Microservices, JPA, Hibernate, JDBC, Multithreading, Debugging, Software Testing, Agile Collaboration.

## WORK EXPERIENCE

**Software Engineer Intern (Python, Flask)** | *Pudukkottai, Tamil Nadu,* **Dec 2024 – Apr 2025**

*SR Academy for Research and Extension (A Unit of Karpaga Vinayaga Educational Trust)*

- Developed and maintained backend applications and RESTful APIs using Python and Flask, supporting core application workflows.
- Designed and optimized relational database schemas and SQL queries across MySQL and SQLite, improving data retrieval efficiency.
- Implemented authentication and input-validation modules, strengthening application security and reducing invalid data submissions.
- Collaborated with frontend developers in an Agile/Scrum environment, participating in sprint planning and code reviews.

## PROJECTS

**AI Chatbot | PYTHON, Flask, TensorFlow, HTML/CSS/JavaScript**

- Built an AI-powered chatbot using NLP and TensorFlow with intent-based training models to automate student query handling.
- Integrated a SQLite database and automated email notifications to streamline complaint tracking and resolution.
- Implemented intent classification and context-aware response handling to deliver accurate, automated responses and enhance the student support experience.
- Developed backend REST APIs with Flask and a responsive frontend, Improved API response/query performance by 65% through SQL optimization.

**Banking Management System | JAVA, Swing, OOP, File Handling**

- Built a secure desktop banking application in Java and Swing supporting deposits, withdrawals, balance inquiries, and transaction history.
- Implemented role-based access control, authentication, and session management; applied OOP principles and modular architecture for scalability.
- Designed an Admin Dashboard for account monitoring and automated CSV transaction-report generation.

**Employee Management System (Full Stack) | JAVA, Spring Boot, Angular, MySQL, REST API**

- Developed a full stack employee management application with a Spring Boot REST API backend and an Angular frontend.
- Built Angular components and services to handle employee CRUD operations, consuming backend REST APIs via HttpClient.
- Implemented client-side routing in Angular for navigation across employee list, detail, and form views.
- Developed RESTful APIs using Spring Boot with a layered Controller–Service–Repository architecture; integrated MySQL with JPA/Hibernate for persistent storage.
- Automated build, validation, and deployment workflows with a GitHub Actions CI/CD pipeline, reducing manual release steps.
- Tested backend endpoints using Postman and added structured exception handling for secure, reliable API processing.

---

## EDUCATION

- **Master of Science - Computer Science** — Jun 2023 – Apr 2025
  J.J. College of Arts and Science (Autonomus), Pudukkottai, TN
  *Aff: Bharathidasan University | CGPA: 8.6*
- **Bachelor of Science - Computer Science** — Jul 2020 – May 2023
  J.J. College of Arts and Science (Autonomus), Pudukkottai, TN
  *Aff: Bharathidasan University | CGPA: 7.9*

---

## *CODING PROFILES*

- Github: https://github.com/Dheenathayalan12
- Hackerrank: @dheenathayalan13

---

## *CERTIFICATIONS*

- *Web Development Fundamentals -IBM SkillBuild*
- *Java Mastering Fundamentals – Scaler*
- *Python Programming – Guvi*
